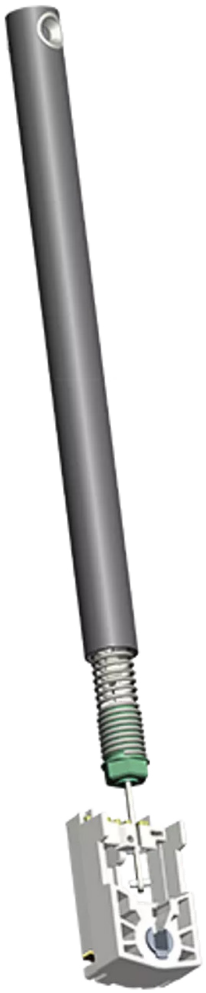
CALDWELL
ASSA ABLOY

Hybrid Balances

ULTRA-LIFT®

Built for heavy-duty window sash applications.

Caldwell Hybrid Balances are designed for heavy window sash applications, delivering AAMA Class 5 verified performance. The pre-tensioned ULTRA-LIFT® system reduces operating effort, making a 200 lb sash feel as light as 60 lbs.*



ULTRA-LIFT®
Single Tilt Carrier

ULTRA-LIFT®
Tandem Sideload Carrier

Product Features

High Lift Assistance
Makes heavy window sashes easier to open and close with significantly reduced operating effort.

Corrosion-Resistance Construction
Features a low-carbon coated steel rod with a low-friction surface for lasting performance.

Premium Music Wire Springs
Engineered with Caldwell's high-quality springs for consistent, dependable lifting force.

Custom-Tuned Design
Built to match your window specifications for optimal balance and performance.

Multiple Color Options
Available in White, Gray, Black, and Tan PVC tube finishes to complement window designs.

Flexible Application Compatibility
Suitable for Tilt, Non-Tilt, and Sideload window systems, depending on carrier design.

Clip-On Availability
Offered with a convenient clip-on option for simplified installation.
