Block & Tackle Balances

APEX®

Made to handle more.

An extended travel Block & Tackle Balance for sideload applications, APEX® balance is available with multiple end guide configurations, for different jamb sizes and it succeeds AAMA Class 2 with a weight capacity of 2-53 lbs.

Product Features

Extended Travel
Extended travel capability reduces SKU complexity while accommodating a broader range of egress requirements.

Music Wire Springs by Caldwell
High-quality springs provide reliable, repeatable performance throughout the product lifecycle.

Elongated Bottom Guide
Expands installation options and simplifies adaptation to unique application requirements.

Hemmed Channel Edges
Reinforced edge construction improves durability and enhances handling during installation.

Parked Mounting Hook
Stays centered and ready for attachment, helping reduce installation time and effort.
